## EDUCATION

- **LJ Institute of Engineering and Technology** July 2020-2024  
Bachelor of Engineering in Information Technology 9.46 CPI
- **Gayatri vidhyavihar** March 2020  
12th Science (GSEB) PCM 78.66 %

## EXPERIENCE

- **Phoenix Digital Solutions** Jan-April 2024  
React JS Developer Intern Bopal, Ahmedabad
  - During this 4-month internship, Gained expertise in building responsive web applications using React.js and modern JavaScript (ES6)
  - Designed and implemented reusable components, streamlining code maintenance and enhancing efficiency, which reduced development time for future projects by 40%.
  - Increased skills in state management, component-based architecture, and API integration by 50 to 60% during the internship.

## PERSONAL PROJECT

- **E-Commerce Website - <https://e-commerce-15i5.onrender.com>**
  - In the front end, I used React.js to create a responsive user interface, and I used Redux Toolkit to manage the state.
  - This Includes product listings, search and filter options, product detail pages, user authentication, and a shopping cart.
  - Built the backend using a RESTful API with Node.js and Express.js, and a NoSQL cloud database (MongoDB Atlas) for storing data.
  - I cached and optimized the database that improved server load, system performance, and enhanced code readability by 50%.
- **Real Estate Property Management Website - <https://real-estate-q115.onrender.com>**
  - This property management system Enables landlords to post property details while users can search and filter listings.
  - I developed the front end using React.js and Tailwind CSS for rapid development and customization.
  - I created the backend using Node.js and Express.js as the web framework
  - I designed the backend to handle API requests for CRUD operations related to property listings and user authentication (JWT).
- **Movie Information Website - <https://movie-mo5y.onrender.com>**
  - This website displays movie details and enables users to filter movies by title.

## TECHNICAL SKILLS AND INTERESTS

- **Technical Languages:** HTML, CSS, JavaScript, TypeScript, Java
- **Technical Skills:** React.js, Node.js, Express.js, Tailwind CSS, Bootstrap, MySQL, MongoDB
- **Libraries:** Stripe js(payment), Redux (state management), React Hook Form (form validation)
- **Frameworks:** Next.js
- **Version Control:** Git, GitHub
- **Languages:** English, Hindi, Gujarati
